

Marks & Spencer Homecare Products Ingredients and Safety Data Sheet

1. Identification of Substance/Mixture and of the company undertaking

Product Name: M&S Aspirational Lavender Hand Wash

UPC: M 00849562 S

Series Number:

2. Hazard Identification

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.

3. Composition / Information On Ingredients

Aqua

Sodium Laureth Sulfate

Sodium Chloride

Cocamidopropyl Betaine

Parfum

Glycol Distearate

PEG- 40 Hydrogenated Castor Oil,

Propylene Glycol, PEG-6 Caprylic/

Capric Glycerides

Glycerin

PEG-120 Methyl Glucose Dioleate

Disodium EDTA

Tocopheryl Acetate

Polyquaternium-7

Diazolidinyl Urea

Benzophenone-4

Methylisothiazolinone

Potassium Hydroxide

Sodium Hydroxide

CI 17200

CI 42090

Marks and Spencer PLC, Waterside House, 35 North Wharf Road, London. W2 1NW

Emergency phone no. 01342 870900

4. First Aid Measures

Ingestion : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt or waistband.

Skin Contact: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Eye Contact: Get medical attention immediately. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If respiration or oxygen by trained personnel. If may be dangerous to the person providing aid to give mouth to mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt or waistband.

5.Fire Fighting Measures

Extinguishing media

Suitable: Use an extinguishing agent suitable for the surrounding fire.

Not suitable: None known

Special exposure hazards: In a fire or if heated, a pressure increase will occur and the container may burst.

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Hazardous thermal

decomposition products: Decomposition products may include the following materials:

- carbon dioxide
- carbon monoxide
- sulphur oxides
- metal oxide/oxides

Marks and Spencer PLC, Waterside House, 35 North Wharf Road, London. W2 1NW

Emergency phone no. 01342 870900

<http://www.marksandspencer/productsafetyinfo.co.uk>

Special protective actions for fire-fighter: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide basic level of protection for chemical incidents.

6. Accidental Release Measures

Personal precautions: No action shall be taken involving any personal risk or without suitable training.

Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material.

Environmental precautions: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up

Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor

Large spill: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with noncombustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13).

Dispose of via a licensed waste disposal contractor. Note: see section 1 for emergency contact information and section 13 for waste disposal.

7. Handling & Storage

Storage Store between the following temperatures: 5 to 25 degree cel (41 to 77 F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

Marks and Spencer PLC, Waterside House, 35 North Wharf Road, London. W2 1NW

Emergency phone no. 01342 870900

<http://www.marksandspencer/productsafetyinfo.co.uk>

Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Handling Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking.

8. Exposure Controls & Personal Protection

General Information

Hand protection Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Skin Protection Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Eye protection Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.

Respiratory Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Occupational Exposure Limits

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

9. Physical & Chemical Properties

Marks and Spencer PLC, Waterside House, 35 North Wharf Road, London. W2 1NW

<http://www.marksandspencer/productsafetyinfo.co.uk>

Appearance Pearlised pink viscous liquid

Odour Lavender

pH 6-7

Viscosity 4000 cps -6000 cps

10. Stability & Reactivity

Chemical stability: The product is stable

Hazardous decomposition products:

Under normal conditions of storage and use, hazardous decomposition products should not be produced

11. Toxicological Information

Not available

12. Ecological Information

Not available

13. Disposal

Method of disposal: The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products

via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Hazardous waste:

Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

14. Transport Information

Hazard Classification: Not classified

15. Regulatory Information

Classification: Not classified
